TEXAS STEEL - WALL MOUNTED BIOETHANOL FIREPLACE

BIO-10-063

Elegant wall-mounted bioethanol fireplace with a brushed steel finish. Featuring a 1.5-liter slimline burner in this bio fireplace, it provides up to 3 hours of burn time per fill. The flame size can be easily adjusted with the included tool, and the fireplace requires no chimney or electricity. With a heat output of 3 kW, the Texas fireplace can heat 10-20 square meters depending on insulation. Easy to mount on any wall type, this fireplace is designed to be both stylish and functional.
